

15.	<p>*Participants/population</p> <p>Give summary criteria for the participants or populations being studied by the U-REACH project. The preferred format includes details of both inclusion and exclusion criteria.</p>
	<p>Inclusion Criteria</p> <p>The synthesis will include meta-analyses focused on individuals diagnosed with attention-deficit/hyperactivity disorder (ADHD). Eligible diagnoses must be established using established diagnostic criteria from:</p> <ul style="list-style-type: none"> • Diagnostic and Statistical Manual of Mental Disorders (DSM) (Version III through 5-TR) • International Classification of Diseases (ICD) (Version 9-11) • Studies including participants with ADHD and comorbid conditions will be included, provided all participants have a confirmed ADHD diagnosis. • All age groups will be considered (preschoolers [<6 yo]; Children and adolescents [$6-17$ yo]; Adults [≥ 18 yo]) <p>Exclusion Criteria</p> <p>PWMA/NMA/ IPD-MA will be excluded if they include participants with unconfirmed or unclear ADHD diagnoses, such as those based on:</p> <ul style="list-style-type: none"> • Screening scale cut-off scores alone • Self-reported diagnoses • Informal diagnostic statements (e.g., "doctor said") <p>Additionally, meta-analyses will be excluded if they combine data from participants with confirmed and unconfirmed diagnoses in a way that prevents reliable separation of information from individual RCTs based on diagnostic status.</p>
